Model Type  PCA  PLS  ML  Simple

Model Type PCA PLS ML Simple

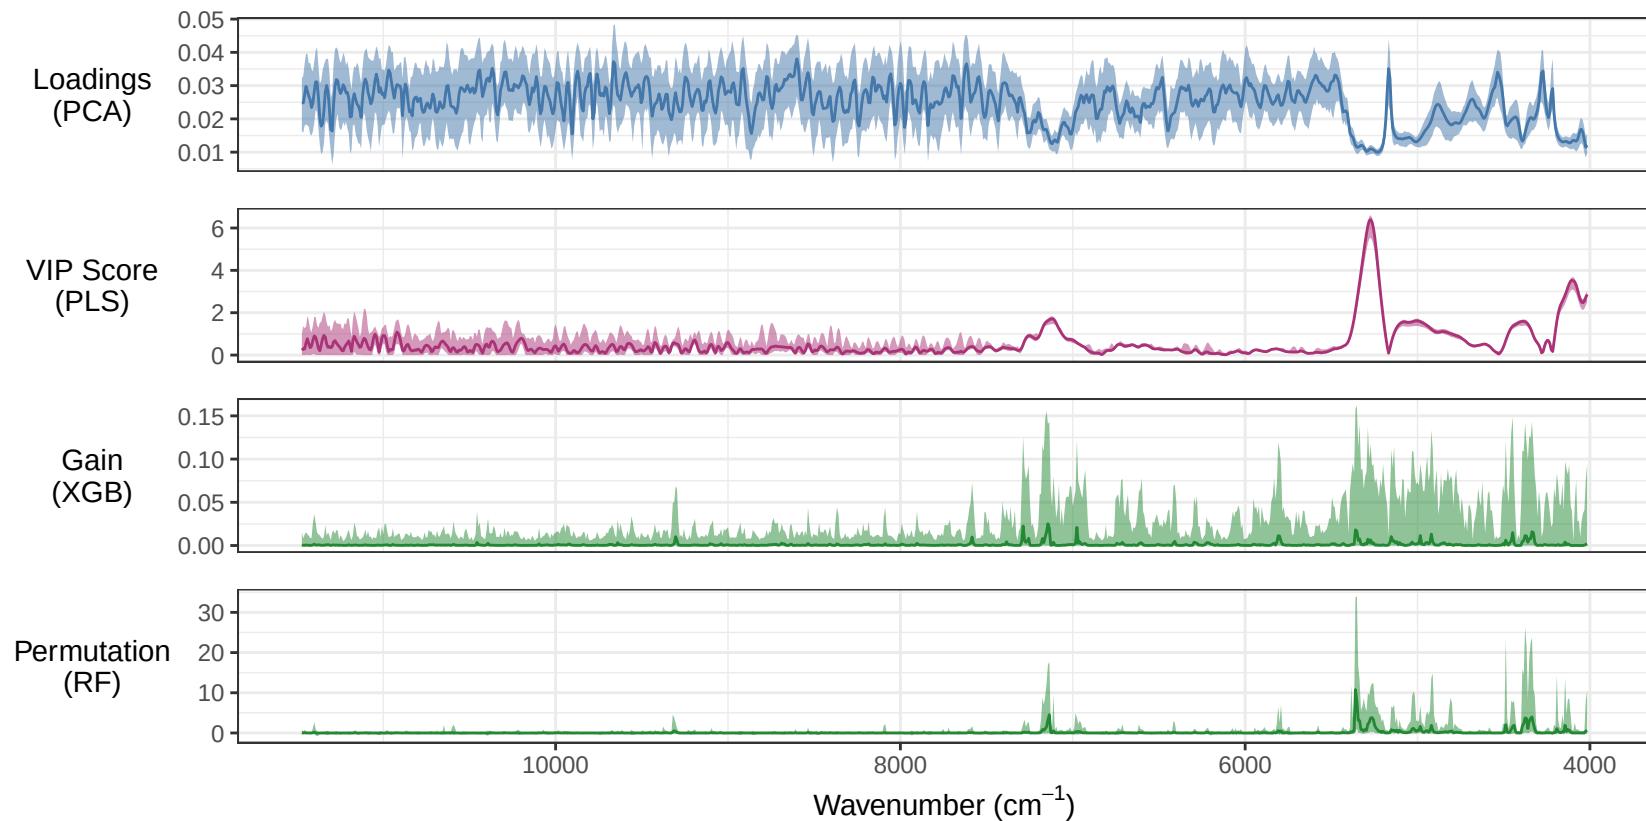

Model Type PCA PLS ML Simple

Model Type PCA PLS ML Simple

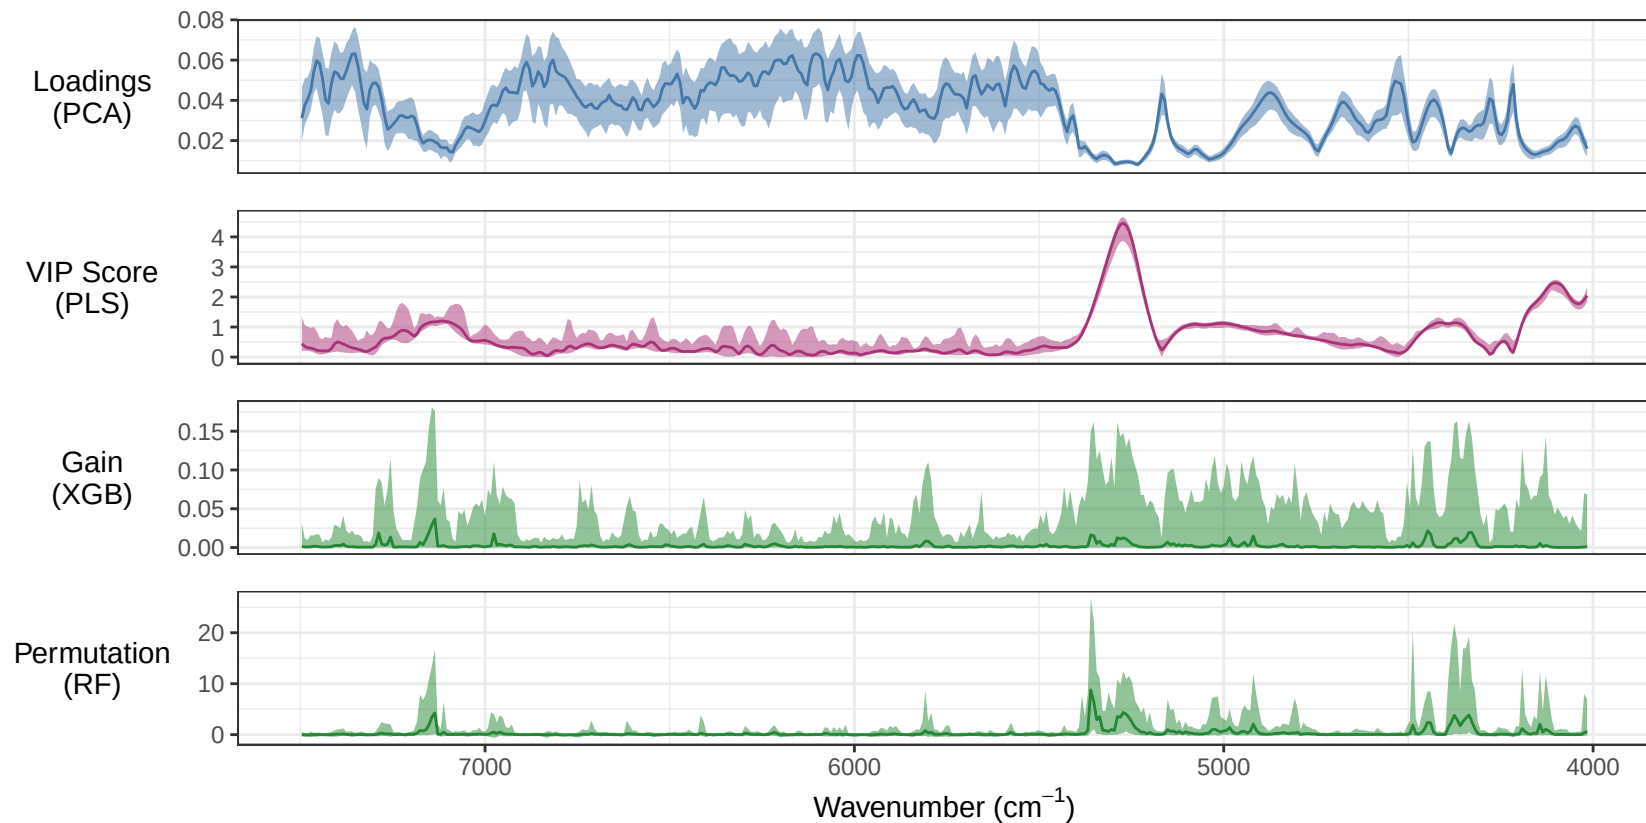

Wavenumber importance across model methods

Ribbons show range of importance values across all 500 10-fold CV iterations

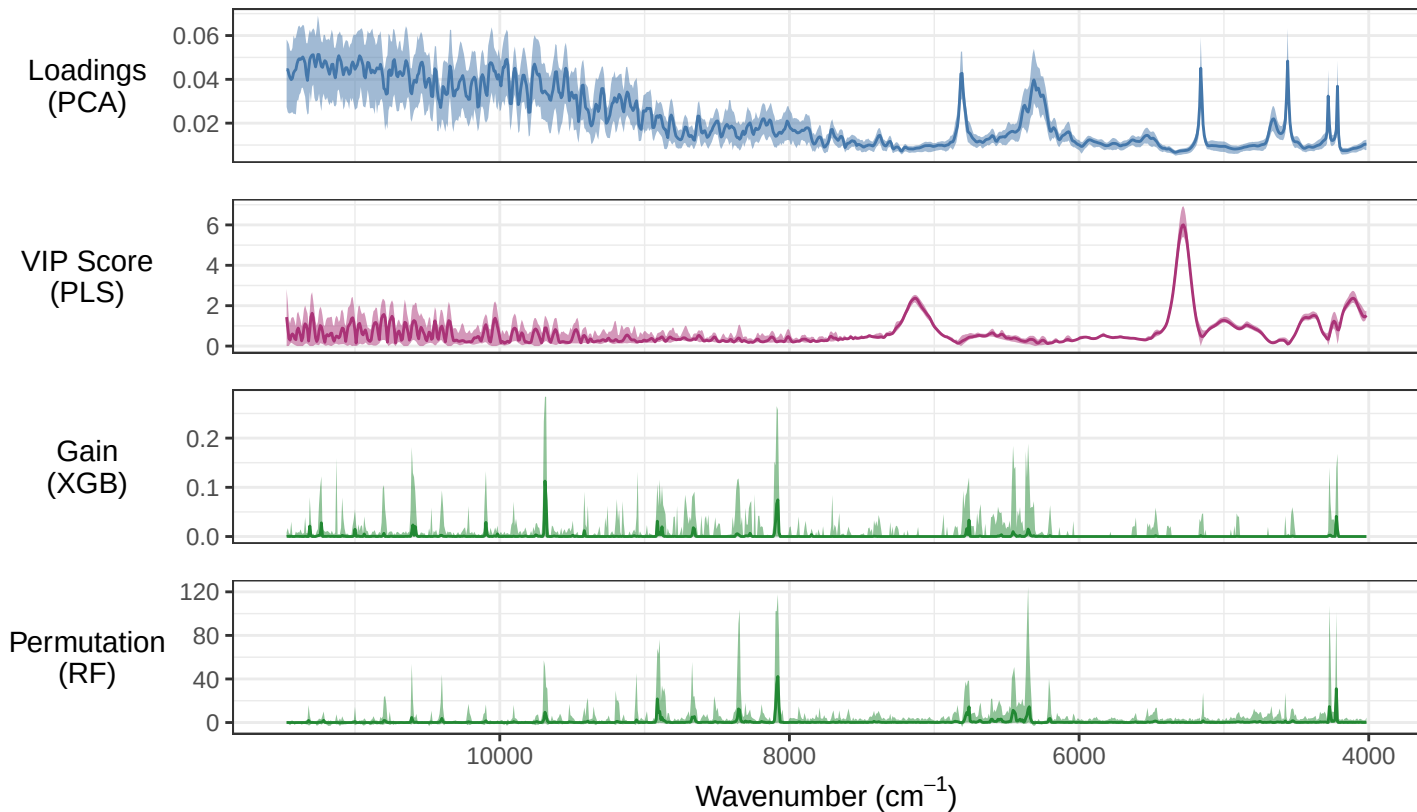

Wavenumber importance across model methods

Ribbons show range of importance values across all 500 10-fold CV iterations

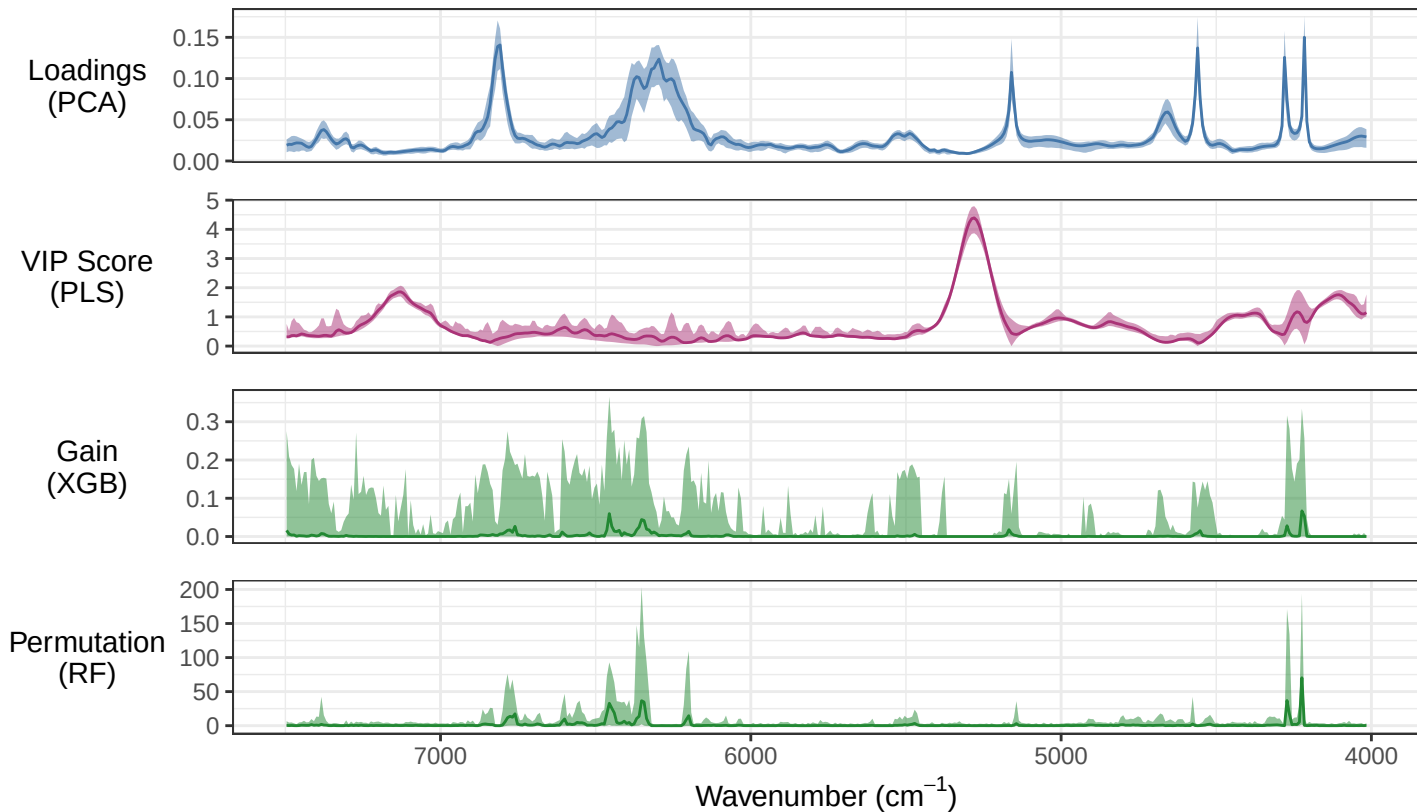

Wavenumber importance across model methods

Ribbons show range of importance values across all 500 10-fold CV iterations

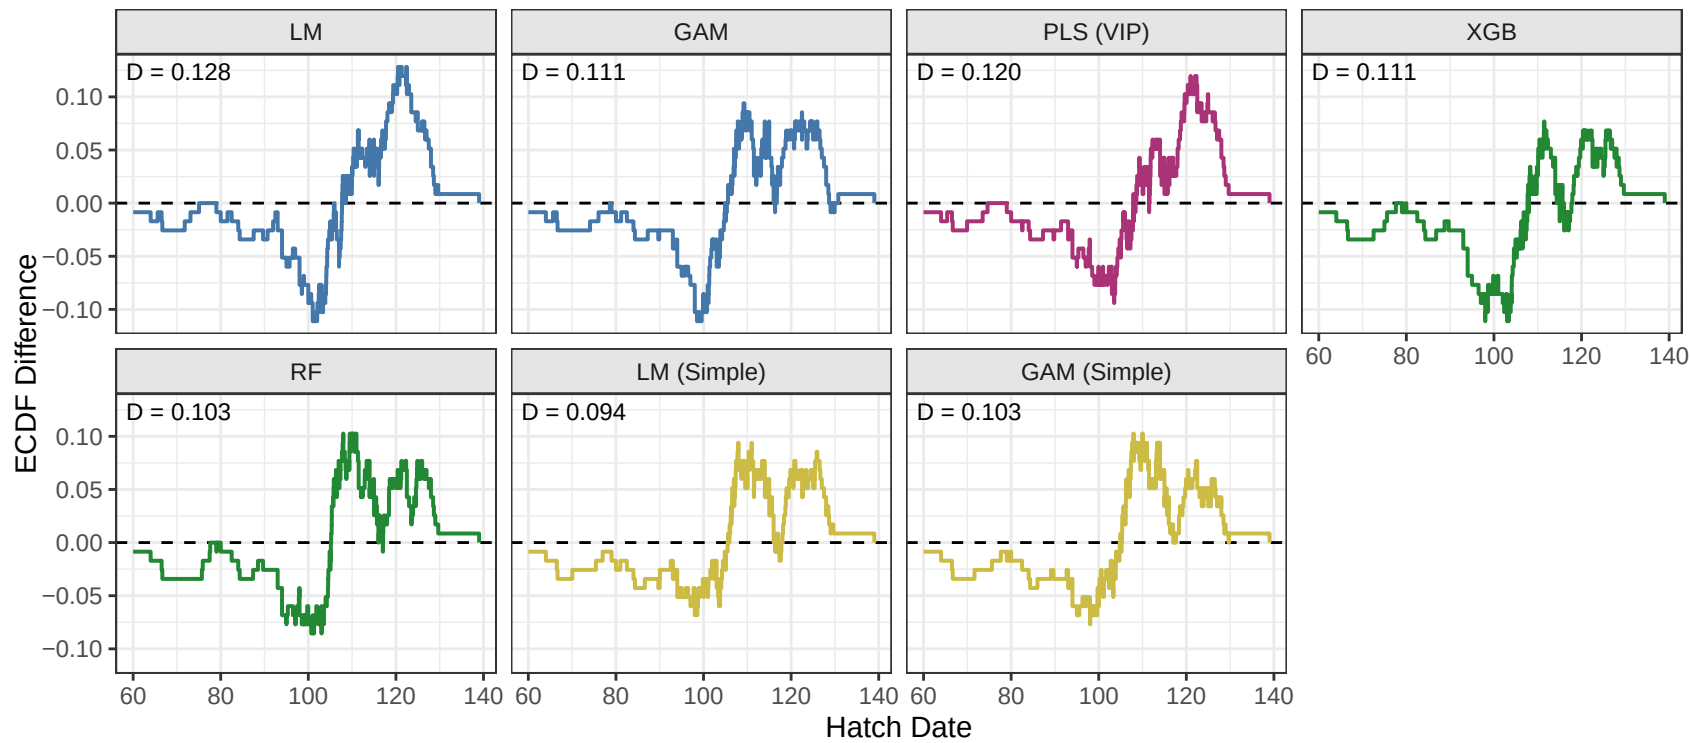

Wavenumber importance across model methods

Ribbons show range of importance values across all 500 10-fold CV iterations

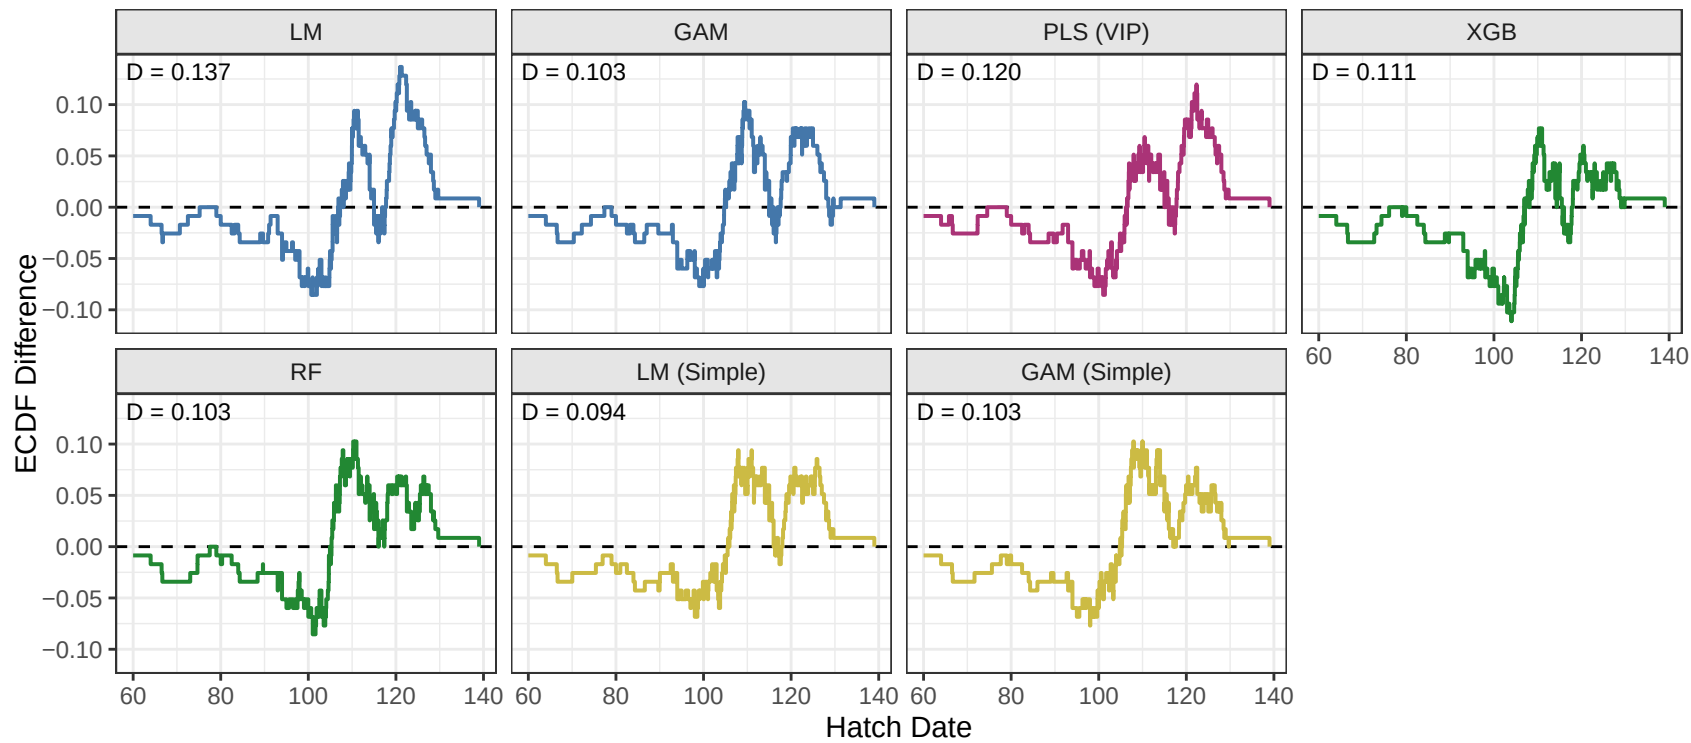

ECDF Difference (Estimate – Original) of Hatch Dates

Deviation from the zero-line indicates model error

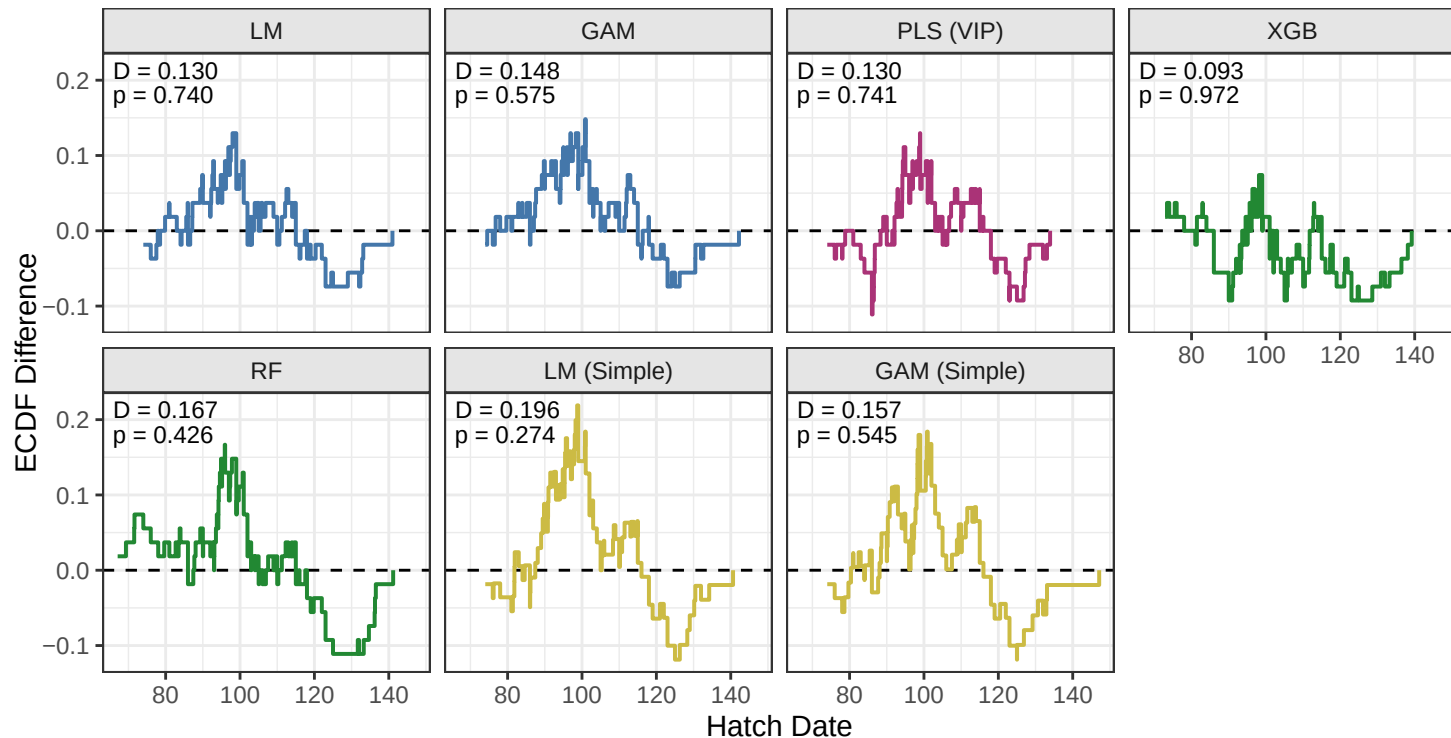

ECDF Difference (Estimate – Original) of Hatch Dates

Deviation from the zero-line indicates model error

ECDF Difference (Estimate – Original) of Hatch Dates

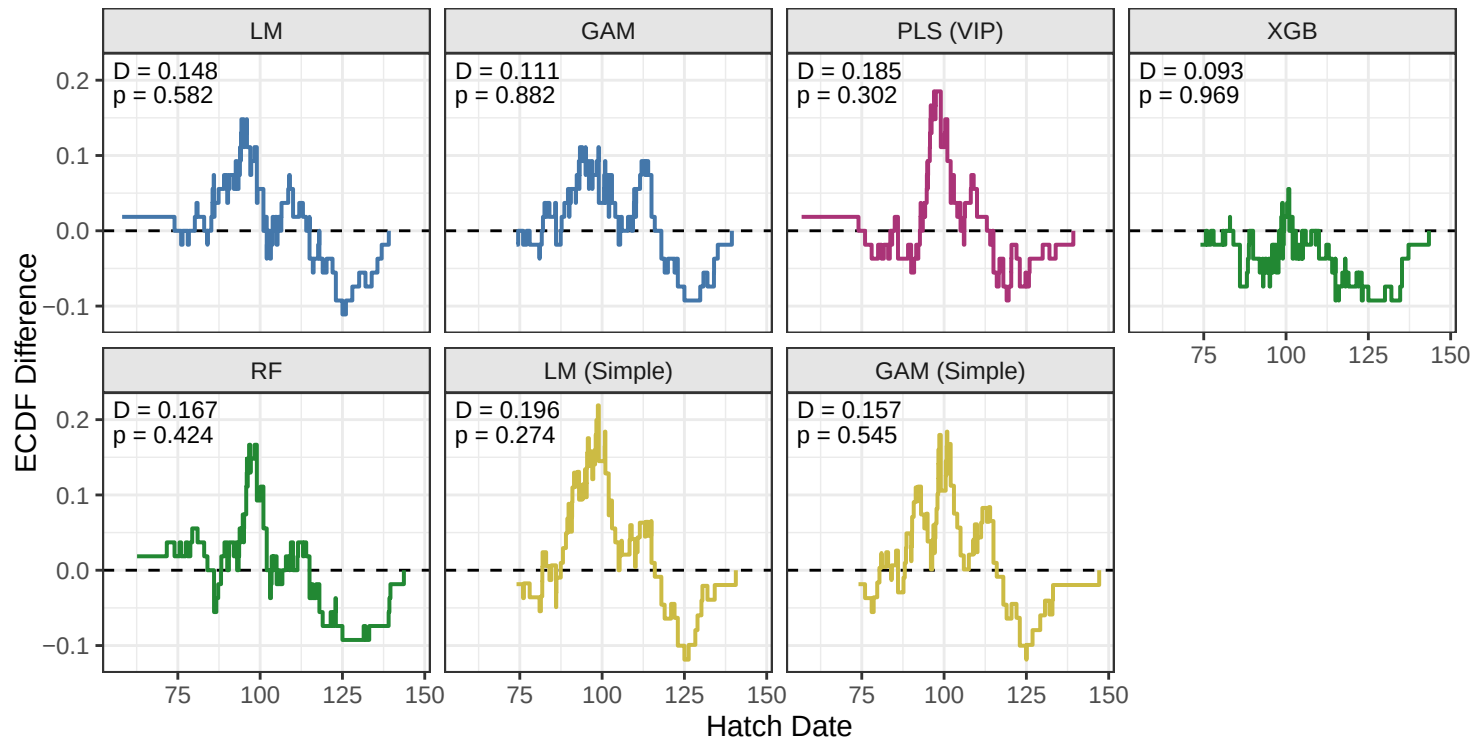

Deviation from the zero-line indicates model error. D and p-values from K-S test shown.

Model Type — PCA — PLS — ML — Simple

ECDF Difference (Estimate – Original) of Hatch Dates

Deviation from the zero-line indicates model error. D and p-values from K-S test shown.

Model Type — PCA — PLS — ML — Simple
